

## **A Friendship Card for the Retired Warden**

Warden FUNG,

I have known you for 10 years from the time when I was a baby to now. I appreciate your heart-given cultivation for me in the past years. I know what you did is for my benefits even if you lectured or punished me sometimes.

In the beginning, I was quite unwilling to live in Po Leung Kuk as a baby. However, when I met you, I found that I was not alone. You took care of us, and troubled about our unhappiness irrespective of remuneration, and I will never forget what you have taught me. I really hope you will always be happy in your future life! However, never forget me. We can have a drink or meal together sometimes. You are always a good warden in my mind!

Remember to contact and visit us frequently!

Ah Nui
