

Family-like Activities (II)

In the morning, we, together with Ms. AU and Ms. HSU, went to Wan Chai by tram and then took a ferry to the first stop of our family-like activity – the Science Museum in Tsim Sha Tsui. We had a good time at the Museum where we appreciated how rockets were made and blast off, made several little experiments, and learned about many wild animals through watching “Born to be Wild” in the Space Theatre. At lunch time, we had delicious doll instant noodles, sandwiches and soft drinks, and felt contented. After lunch, we played around the amusement park nearby. Ms. AU and Ms. HSU took us back to the Kuk by MTR at appropriate time. This family-like activity gave us great pleasure, for we not only had the chance to take different means of transportation but also tried delicious food.
